

WHOLE HOUSE IRON REDUCTION SYSTEMS

REDUCE SULFUR SMELL AND APPLIANCE STAINING

Do you get a rotten egg smell when you turn the tap? Do you have unsightly red or orange stains in your sinks, tubs and toilets? Do your clothes come out of the laundry with ugly stains? You might have iron, sulfur and other minerals in your water.

A Pentair Whole House Iron Reduction System can reduce those minerals before they enter your home. So you can have great-tasting water that's easy on your clothes, appliances, and your skin. And you won't have to hold your nose when you turn on the tap.

FEATURES AND BENEFITS

- ◆ Uses an air-aeration process and catalytic coated mineral media to filter out minerals without the use of harsh chemicals.
- ◆ Simple yet robust valve design provides a low-maintenance and long-lasting system, with a premium electronic control.
- ◆ Available in two sizes to provide whole-house iron reduction for homes with up to four bathrooms.

CLEARER, FRESHER
WATER TODAY**

Enjoy water that tastes, smells
and feels the way it should

PROACTIVE PROTECTION

Don't ignore that unpleasant smell, because it might mean bigger problems in your water. Pentair Iron Reduction Systems reduce iron and manganese minerals before the water enters your home.

SIMPLE OPERATION

You shouldn't have to think about your water treatment. Pentair Whole House Iron Reduction Systems come with a simple electronic control that's easy to program. The automatic bypass keeps water flowing to the home during regeneration, so water is always available.

BETTER WATER FROM PENTAIR

When it comes to water, every home and every family is different. Whether you're on well or city water, water quality might be very different across town, or even across the street. At Pentair, we offer water treatment solutions that can be tailored to your needs. So you get the clearer, fresher water you want. And the peace of mind you need.
